

2010 **SCOOTER**

YAMAHA

TMAX

TMAX PERFORMANCE MEETS PRACTICALITY

Fuel-injected, liquid-cooled, four-valve engine, Controlled-Fill die-cast aluminium frame, large-diameter 43mm front fork, dual 267mm front disc brakes... wait, are we talking about a Scooter? Absolutely, but not just any scooter, Yamaha's flagship TMAX. Gone are the days of sacrificing performance for practicality, and it comes in a convenient, easy-to-use, fuel-efficient package, too. Creature comforts such as a huge underseat storage compartment, fully automatic transmission and large windshield are married with performance features typically found on a sport motorcycle. Whether you're commuting in the city, or exploring this beautiful country, the TMAX is always ready to take you there.

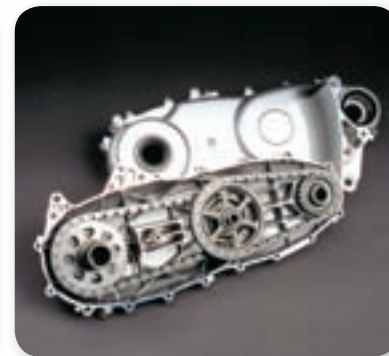

Achieves great fuel economy at 20 kilometres per litre (56 mpg).*

ENGINE Potent 499cc, 4-stroke engine produces great fuel economy and low emissions. Highway speeds are easily obtainable with its powerful sports-oriented engine. Vibration quelling counter-balancer means a smooth ride.

OUTSTANDING HANDLING Thanks to its CF die-cast aluminum frame, this scooter handles like a motorcycle. Lightweight yet rigid, the design is a cross between a motorcycle-type frame and a scooter step-through design.

GOOD LOOKS Edgy sports styling is apparent in the bodywork, with integrated turn signals, passenger grab rails and upswept muffler.

INSTRUMENTATION TMAX's all-inclusive cockpit display keeps you on top of all systems, including kilometres since the last oil change and V-belt services.

Majesty

Models may not be exactly as shown.

Majesty **MAXIMUM CONVENIENCE**

The power of a motorcycle nestled into the heart of a scooter? You bet! The Majesty defines comfort, convenience and performance, pumping out plenty of power for everyday commuting or a scenic tour. The fully automatic transmission, upright riding position, outstanding weather protection and tons of room for a passenger and gear, the Majesty breaks the traditional scooter mould.

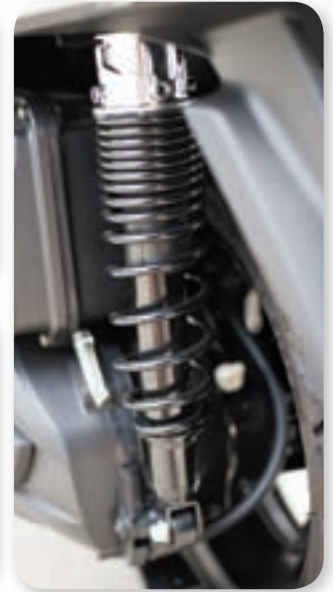

*Excellent fuel economy at 21.5 kilometres per litre (61 mpg)**

POWERFUL PERFORMER Peppy, 395cc, liquid-cooled, DOHC, 4-valve, 4-stroke, fuel-injected engine produces excellent highway capable power and incredible fuel economy.

BRING IT In addition to the big underseat compartment, there's even more storage inside the Majesty's full-coverage front fairing.

ULTIMATE CONVENIENCE Automatic transmission, electric start, and a flip-type parking brake round out the easy-to-operate theme of the Majesty.

BWS 50 & 125

BWs PRACTICAL FUN

Looking for the ultimate in reliable suburban or urban transportation? With its gas-sipping fuel injection system, an environmentally friendly catalyzer exhaust and fully automatic "gas-it-and-go" transmission, the BWs 125 is the economical choice. Easy to operate, with two-up plush seating and a large underseat storage compartment, the stylish BWs 125 can take a friend and all your stuff, too! The single-cylinder 125cc, 4-valve engine provides plenty of power to get you around or across town. Or take a look at our original, best-selling, BWs 50. Tough, bold and aggressive, powered by a peppy 49cc, two-stroke, Autolube™-injected engine and rugged running gear, the BWs 50 is ready for both you and a passenger.

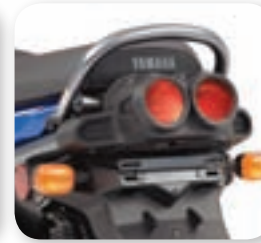

Outstanding fuel economy for the BWs; 38 kilometres per litre (107 mpg) for the BWs 125, and 52 kilometres per litre (148 mpg) for the BWs 50.

COCKPIT CONTROL The BWs 125's easy-to-read analogue speedometer is flanked by a fuel gauge and indicator lights.

FUEL-EFFICIENT AND GREEN A catalytic converter and closed loop fuel injection system with an oxygen sensor inside the BWs 125's muffler keep emissions low, fuel economy high and sends the fun factor right off the scale. We didn't forget the ever-popular BWs 50, it has a catalytic converter to reduce exhaust emissions, too.

TWIST AND GO Fully automatic C.V. transmissions and push-button electric starters make either BWs super easy-to-use, fun transportation.

CONVENIENCE Centre and side stands on the BWs 125, along with a locking cover on the ignition switch, make it convenient to park. Both models feature large locking underseat storage... big enough to hold a full-face helmet.

Vino 50 & 125

Vino THE WHOLE PACKAGE

We've combined fashion and function in these awesome scoots. 4-stroke engines pump out plenty of predictable power, while forced air cooling keeps your machine idling nicely in any weather. Whether you want the extra zip of our bigger 125cc model, or its smaller, 49cc sibling, one part of this cute couple is sure to steal your heart.

Vino 125 delivers 41 kilometres per litre (115 mpg) while the Vino 50 gets an astounding 47 kilometres per litre (132 mpg)**

RELIABLE POWER The Vino 125's sporty, 124cc air-cooled, SOHC, four-stroke, 2-valve engine puts out strong, predictable power with incredible fuel economy.

QUICK AND EASY Dependable, push-button electric start with backup kickstarter make getting on the road a breeze.

TAKE IT ALONG Huge underseat storage compartment can hold a full-face helmet and a rugged rear rack is perfect for hauling schoolbooks or groceries.

C3

C3 AFFORDABLE FUN TRANSPORTATION

For a fun way to zip around town on less fuel with plenty of storage to bring along all your gear, look no further than the affordable yet environmentally responsible C3. This 50cc, fuel-injected, 4-stroke scooter is easy on the wallet, laughs as it passes gas stations and is a blast to ride! There's even room under the seat for a laptop computer. Bet you will have trouble wiping the smile from your face.

49 kilometres per litre (138 mpg) will have you laughing at high gas prices.*

SPORTY PLUSH A hydraulic telescopic fork up front and a single shock at the rear, along with fat tires on 10-inch wheels, serve up a nice, smooth ride.

FULLY INFORMED Speedometer, odometer, fuel gauge, high beam indicator light and engine management indicator lights are all here.

Always wear an approved helmet, eye protection and proper riding apparel. Do not drink or take drugs and ride. Read your owner's manual. Ride safely and respect the environment. Every scooter rider should be aware of the limits of his or her skills, experience and abilities and ride accordingly. Beginners should be extremely cautious and allow extra time and distance for manoeuvring and braking. All scooter riders should practise defensive riding and enroll in a recognized safety training course. Fuel economy estimates are based on US EPA exhaust emission certification data obtained by Yamaha and converted into Canadian measurements. Your actual mileage will vary depending on road condition, how you ride, maintain your vehicle, accessories, cargo and operator / passenger weight. All information, specifications and appearance of Yamaha products shown herein are subject to change without notice. Some U.S. and European models shown.

Yamaha Motor Canada Ltd., 480 Gordon Baker Road, Toronto, Ontario M2H 3B4
