TWO SIZES. BOTH READY TO ZOOM.

The biggest Zuma brings it all into the modern era with a clean, fuel-injected four-valve engine that cranks out 89 mpg.* With its telescopic front fork, fat tires and rugged attitude, the Zuma 125 is designed to get you and a friend there, along with your gear, for years to come. Or choose the original Zuma: tough, bold and aggressive, its willing 49cc Autolube-injected engine and off-road-inspired running gear are ready to go practically anywhere—at up to 123 miles per gallon.*

MAXIMUM POWER. MAXIMUM STYLE.

A fuel-injected 499cc parallel-twin engine, a lightweight aluminum frame and radial tires on 15-inch wheels mean this scooter goes like a sportbike. The TMAX has more than enough power to run with freeway traffic, and its aerodynamic fairing and expansive cockpit will get you there in maximum comfort and style—returning 47 miles or more per gallon* on average the whole way.

TMAX

47
MPG

High Tech Silver

SLEEK DESIGN Sculpted bodywork wraps around a high-tech aluminum frame, with integrated turn signals and grab handles. **INSTRUMENTS** TMAX's all-inclusive cockpit display keeps you on top of all systems, including miles since last oil and V-belt services. **QUIET AND CLEAN** A catalytic converter and oxygen sensor inside the TMAX's muffler help keep it running perfectly. **BRIGHT LIGHTS** Halogen low and high beams provide plenty of visibility, ahead of a big, quiet cockpit.

*ACCORDING TO EPA EMISSIONS FUEL ECONOMY TEST (LA-4). YOUR ACTUAL MILEAGE MAY VARY.

A MODERN CLASSIC.

Combine classic styling with modern engineering and you wind up with the Yamaha Vinos. Clean, reliable four-stroke engines power both scooters—124cc for the Vino 125, 49cc for the Vino Classic—and both start with the push of a button and get great mileage: 96 mpg for the Vino 125 and 110 mpg for the Vino Classic.* Both feature fully automatic transmissions and super, low-maintenance drive systems.

2009 MODEL SHOWN.

BOXY IS BEAUTIFUL.

That cube shape gives the C³ great storage capacity—about nine gallons—and it's hard to beat a 49cc fuel-injected four-stroke engine that gets up to 115 miles on a single gallon of fuel*. Big, wide tires, motorcycle-style fork and that zippy engine mean it's a hoot to ride, too.

C³

115
M P G

- SPORTY PLUSH** A hydraulic telescopic fork up front and a single shock at the rear serve up a smooth ride.
- FULLY INFORMED** Speedometer, odometer, fuel gauge and indicator lights are all here.

- Raven/Red

KING-SIZE FUN.

It's the next best thing to being chauffeured; all you do is hop aboard, twist the throttle and go. The Majesty's powerful 395cc engine and fully automatic transmission do the rest, easily transporting you and a passenger just about anywhere within your domain (and pretty far outside it, too). Car-like convenience, comfort and a big, 3.7-gallon gas tank give the Majesty serious range at 50 mpg.* And a big windshield, plush seat for two and 16 gallons of locking storage beneath it complete the majestic picture.

MAJESTY

50
M P G

- Stealth Gray
- Pearl White

- BRING IT** In addition to the big underseat compartment, there's even more storage inside the Majesty's full-coverage front fairing.
- ALMOST TOO CONVENIENT** A flip-type parking brake carries on the fully automatic, easy-to-operate theme begun by the automatic transmission and electric starting system.

There are few joys in life equal to the free-spirited thrill and experience of motorcycling. And that's why it's important for all of us to do our part as responsible riders. By following logical common-sense rules, we can maintain season after season of unparalleled enjoyment of our sport. Always remember to review your Yamaha Motorcycle Owner's Manual and Tips Booklet before you ride. Before each ride, take time to check all your equipment. Always wear an approved helmet, eye protection, long-sleeved shirt, long trousers, gloves and boots. And always be sure your bike is in first-class condition before riding. Keep it well-maintained and always outfitted in accordance with state and local laws. Provide parental supervision when a motorcycle is being operated by a minor. Every motorcycle rider should be aware of the limits of his or her skills, experience and abilities and ride accordingly. Beginners should be extremely cautious and allow extra time and distance for maneuvering and braking. All riders should ride well within the limits of their abilities, never beyond them. Always ride in a responsible manner, respecting the environment as well as all state and local laws. Ride responsibly, and remember, motorcycle riders, as all motorists, must practice defensive driving. Do not drink and ride. It is illegal and dangerous. Yamaha and the Motorcycle Safety Foundation encourage you to ride safely and respect the environment. For further information regarding the MSF course, please call 1-800-446-9227. Specifications subject to change without notice. See your dealer for details. Printed on recycled paper in the U.S.A. To find the Yamaha Dealer nearest you, call 1-800-88-YAMAHA.
